Re: COVID-19 Update – Essential Business Status

Please be advised that Perrone Aerospace has been granted Essential Business status pursuant to Executive Order 202.6 whereby the company is recognized as a supplier to the aerospace industry and operates an EASA/FAA certified repair station at its manufacturing facility in upstate New York.

In accordance with the rules set forth in this order and by the state of New York, we will continue to operate in a limited capacity with a reduced on-site staff. Non-essential administrative staff have been instructed to work from home. Those that may exhibit any symptoms of the COVID-19 virus are being encouraged to self-quarantine. We are currently accepting requests for samples and filling and shipping orders to the best of our ability.

For those that will be at the facility, every precaution is being taken to ensure the health and well-being of those employees.

Signs are posted throughout our facility and we are strictly enforcing care and hygiene recommendations as dictated by the Center for Disease Control (CDC).

This is a very fluid situation that changes on a daily basis. We will continue to update everyone as new information becomes available.

Please rest assured that every effort is being made to continue support the needs of our customers, but with the health and well-being of our employees and their families being our number one priority.

For any specific questions, please reach out to your sales representative or email us at sales@perroneaero.com.

Thank you.
