To: All Customers and Supply Chain Partners

Subject: Impact of COVID-19 on Perrone Aerospace Operations

In light of developments regarding COVID-19, we would like to proactively provide details and transparency about any impacts of the Coronavirus on our operations and processes.

First and foremost, we would like to confirm that as of Friday, March 20, 2020, there has not been a confirmed case of Coronavirus at the Perrone Aerospace factory and headquarters in Fultonville, New York.

In an attempt to reduce workplace density, and comply with "Social Distancing" recommendations New York State has mandated all non-essential businesses temporarily shut down operations effective immediately until further notice.

The safety and well-being of our customers and employees continues to be a top priority. We will continue to monitor data, CDC and WHO recommendations and update our practices as needed.

Thank you as always for your continued support as we all work through these turbulent times together.

Good health,

William M. Perrone,
President
